Dear Sir:

We have the following Transplantal Mums. These are fine stocky plants, kept low, and are in excellent condition for immediate planting.

Pompons, Singles and Anemones planted now  will give mass of flowers at blooming time.

The Standard Transplants will give two or three big blooms where only one could be expected from later cuttings.

Our prices of Transplants are about what many others charge for Rooted Cuttings.

\$4.00 per 100 \$35.00 per 1000
